H. J. Fenton and Dewey Ragsdale Praise Workers

Calloway county successfully closed the 1945 Red Cross War Drive Saturday, March 31, with total contributions of \$14,021.37. This amount is \$2,921.37 in excess of the quota of \$11,100.00, which is an outstanding accomplishment, according to comparative figures.

H. J. Fenton, chairman, and Dewey Ragsdale, co-chairman, stated: "The credit for this remarkable achievement goes to the splendid corps of Red Cross Workers who during the campaign gave unselfishly of their time and efforts. We are proud indeed of the very fine record which the Red Cross Workers and the people of Calloway county have made in putting the drive over, in such a highly successful way," was the comment made by the two leaders.

An Appreciation

The people of Calloway county have won another victory on the Home Front by oversubscribing the 1945 Red Cross War Fund Drive. The quota for this county was the largest we have ever had, \$11,100, and it was raised in the shortest length of time a Red Cross quota was ever raised by us, just 15 days. As for as I can ascertain, this was the first county in the state to go over the top in this nation wide drive.

This outstanding feat was accomplished by the efforts of Acting Chairman Harry Fenton, Dewey Ragsdale, Miss Alice Keys, all other workers and the patriotic contributions of the good citizens of this county. Over 2,000 men and women in the armed services of our country must be proud to be from Calloway.

Through your generosity and effort, the Red Cross office in Murray can be maintained through 1945 and that life saving hand of mercy can be extended and kept with our fighting men on every battlefield in the world.

On behalf of the boys and girls and their families and all who helped in any way in this great work I sincerely offer thanks.

ZELNA CARTER,
Chairman Calloway County Chapter A.R.C.

Rex Tabors Sends Gun Shell Lamp

Rex Tabors, H.A. 1-c and located in San Juan, Porto Rico, made a floor lamp of "three inch shells" and sent it home to his wife this week. His brother, Bodie Tabors, had put the pieces together and shined the brass parts until it was a thing of beauty. The lamp sits on a rhinogony base and is the correct height for a reading lamp. Mr. Tabors had the lamp on display in the office of the Ledger and Times.

CHURCHES AND SCOUTS WILL COLLECT CLOTHING MONDAY FOR THE U. N. C. C. DRIVE

Murray is organized to collect clothing for the United Nations Clothing drive that is being sponsored throughout the nation this month, according to the Rev. T. H. Mullins, pastor of the Methodist Church and acting chairman of the committee of collections. Mr. Mullins stated Wednesday that the churches of the town were sponsoring the collecting of clothing and the Boy Scouts will do the gathering of bundles. This drive, although designed to last through the month of April, will be completed Monday and Tuesday in this county.

Individuals are asked to contribute five pounds or more each of good clothing. They further ask that the clothing be wrapped in bundles and placed on the porch by noon Monday, April 9. Boy Scouts will gather bundles in the afternoon. The donations will be stored in the W. G. Swann building at 512 Main Street where it will be sorted and packaged for shipping on Tuesday. This building is being donated by Bill Swann.

Persons residing out of Murray may bring bundles to the storage place at 512 Main Street on these days.

Persons donating clothing are asked to tie shoes together so there will be no trouble matching, and donate clean clothes, though they need not be ironed.

Clothing is badly needed for war suffering countries, and the national authorities have advised that clothing that may be stored in attics, wardrobes and storage places in American homes is badly needed. They remind us that the style of unused and forgotten clothing may be out of date, but it does not concern those who are in dire need of garments of any type to clothe and comfort their war-maimed bodies. Anything everything usable in the form of men's, women's, boys' girls' and infants' wear and bedding will come as a gift from heaven to these millions of stricken people.

BULLETIN:
Radio announcements this morning stated the Jap Cabinet had fallen!

PARIS—U. S. Third Army tank forces, breaking into the open Thuringian plain, captured Kassel, Gotha and Suhl yesterday and closed in on Erfurt, 130 miles southwest of Berlin, in their swift race to split the dying Reich.

In the north, British armored forces hurled two major river barriers, the lower-Weser and Ems rivers, and plunged on toward the great German North Sea ports of Bremen and Emden.

One force pushing into Linz, 55 miles south of Emden, and sweeping onward, was only 45 miles from cutting the last Nazi escape route out of all Holland, and Canadian troops on the western flank were overrunning V-bomb sites.

Karlsruhe, capital of Baden on the upper Rhine, fell to the French First Army at the extreme southern end of the front, a French communiqué announced. The adjoining U. S. 7th Army pushed to Uffenheim, 34 miles northwest of Nuernberg, Nazi convention city and key road city controlling the Berlin-Brenner pass route into Italy. The Americans and French also were threatening Stuttgart, big south German city.

Field Marshal Montgomery's British 11th Armored Division swept around Osnabrueck, where the last bitter German resistances were being slain, and crossed the Weser river, one of the last two water barriers before Berlin, in an apparent double strike aimed at Hangeover and Bremen.

The American Third Army, pacing the Allied drive in the center, ran through surrendered Gotha and moved on toward Erfurt, 11 miles beyond, striding the Frankfurt-Dresden military superhighway. The Germans said 40 Allied gliders set down troops, fuel, and munitions to aid the capture of ancient Gotha.

The American Ninth Army charged up to the 240-foot Weser river, next to last barrier on the high road to Berlin, 17 miles away. Reaching the river at Bad Oeynhausen, the Americans menaced the large Prussian communication line.

COUNTY ATTORNEY
CALLOWAY COUNTYTO THE CITIZENS OF
CALLOWAY COUNTY

During ordinary times the average citizen is far more conscious of his local or County Government than he is of any other Government under which he lives because it touches his life and activity at almost every turn. In a war period, however, such as we are experiencing at present, the National Government overshadows State and County Governments in that it touches the life of every individual in such an intimate and vital way.

Yet, even during a period such as we are experiencing at present, people can't afford to be unconcerned about their County Government and particularly about the men they elect to the various County Offices who are charged with the responsibility of administering their County Government.

One of the most important offices in your County Government is that of County Attorney. This is true for many reasons so obvious and well known that it is unnecessary to enumerate them. With this thought in mind, I have the honor and pleasure of offering myself as a candidate for the office of County Attorney and submit for your consideration the following qualifications.

I received the A. B. degree from Murray State College in June, 1930. In the summer of 1931, I enrolled in the Law School of the University of Kentucky, but due to circumstances beyond my control, I was unable to continue in Law School and during the following years I taught school, going back to the University for summer work as often as possible and, thus, finished the requirements for the Masters degree in 1941. My work forced me to move to Louisville in 1940 and I immediately enrolled in the Jefferson School of Law and finished the course in 1943. I passed the State Bar Examination in June 1943, and began the practice of Law immediately upon the receipt of my license.

It is my good fortune to know and count as my personal friend most every citizen in Calloway County, and I believe most every citizen in the County knows me; but to those who do not, and in fact to every voter, I extend an invitation and urge that you inquire as to my personal fitness, legal qualifications and etc. to fill the office of your Attorney, and if you find me qualified and personally fitted, I earnestly and sincerely solicit your vote and support. And if you honor me with election, I shall ever be grateful and shall bring to the office all the ability, energy, enthusiasm and integrity that I possess and constantly strive to give you competent and efficient legal service.

Respectfully submitted,
WAYLON RAYBURN

CANDIDATES SPROUTING OUT
FAST AS POKER SPROUTS

It is nice for citizens to be willing to serve in public office, and most fellows take defeat sorrowfully. No person should encourage one to run for office just to please the would-be candidate, because it is to the best interest to have the positions filled with as competent persons as possible, and with as little rivalry as possible in the primaries, as in this county it is all over in the primary.

A few people have asked me if I would run for representative. Of course they think that a fellow never gets the bug out of his bones, and that I am the only fellow that does not care for being defeated. However there is a limit, as next time would be too much for anyone. So until there is really some demand I will not permit my name to go on any ballot. I have not changed my attitude about a personally worthless job, and I would not solicit personally a single vote.

I think it certainly an opportunity for interested citizens to come together and solicit someone to run for representative, as Calloway's interest demands such action. I would abide by their wish in whatever they might select. The middle term of any administration is the most important, and the neglect of Calloway to have some one who would cooperate for reasonable legislation or fight against any neglect or selfish programs would be unfortunate.

There would be something wrong with any candidate who would want to be elected to this office by making a fight for it, as it will not pay any unselfish man or woman to make a fight for it.

Lady Nearly Choked While Lying In Bed Due To Stomach Gas

One lady said a few days ago that she used to be afraid to go to bed at night. She was swollen with stomach gas, which always got worse when she went to bed, and the gas would rise up in her throat after she lay down and would nearly choke her. She couldn't lie flat. Had to prop herself up on pillows. Recently this lady got ERB-HELP and now says gas is gone, stomach feels fine, bowels are regular and she can go to bed and sleep soundly.

ERB-HELP contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Sold by all Drug Stores here in Murray.

Let The Weather Man Get Through... Then make your plans for a crop with due respect to him. His ways are past finding out—this time wet, next time dry; however the ideas of November, with due diligence and co-operation, a reasonable crop will have been harvested.

Of all the activities of human kind the agricultural program is the most important for this year. All cooperation should be given the farmers. The greatest of all single crops is the fruit and vegetable crop, but it is up to the weather man to permit it.

The merchants are to close each Thursday afternoon from now until October—what for? For no good reason if time out is not used for betterment of some one, in production of food, which will be very scarce in every line. It should not be a series of holidays, but real useful operations for good.

If a real emergency arises, any merchant who can do so should accommodate the person in an emergency.

Merchandise will continue to be scarce, and regulation of prices will be mandatory; many items not available because of technical regulations, which should not be enforced rigidly, except when deliberately planned for excessive profits.

Babies' leather shoes will be rationed—a mistake I think. We have plenty of draw hats; more shoes just received; also 3,000 yards of canvas.

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.
You may suffer nagging backache, rheumatic pains, headache, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with stinging and burning is another sign that something is wrong with the kidneys or bladder.

F. D. E. A. Board Completes Plans For District Meet

Directors of the First District Education Association completed plans for a general meeting of school officials at Murray April 16 and discussed plans to present proposed legislation by the Kentucky Education Association to the public and legislators at a meeting in Paducah Saturday.

Only 50 persons will be invited to attend the meeting at Murray due to a ban on conventions by the Office of Defense Transportation and the board approved a list of school officials submitted Saturday by M. O. J. Warriner, secretary.

The convention ban forced the KEA to cancel its annual convention of delegates this year so it was decided to hold a series of district meetings in an effort to keep the organization intact during the emergency although no official business may be transacted, Mr. Warriner reported. Officials of the KEA will attend some of the district meetings.

The minimum desirable educational program outlined by the KEA board of directors and steps necessary to put it in operation was discussed at length by the directors here.

Work, Worship On V-E Day

WASHINGTON, March 31.—War Mobilizer James F. Byrnes asked workers today to stay on their jobs even when the V-E Day whistles blow.

"No one can tell when V-E Day will come," Byrnes' report to Congress and the President said.

"But when we are advised by General Eisenhower that organized resistance by the German army has ceased, I hope the American people will make that a day of work and worship."

Byrnes told his news conference that this represented a request for continued factory work on the day of victory—"but just a request—I have no power to order it, you know."

He asked that government agencies also "observe the spirit of this request."

Old Whitley House, Kentucky's Oldest

By RUSSELL DYCHE, Director Kentucky State Parks

"That was the first brick house built in Kentucky, and is the oldest house in the State," someone pointed out to me some years ago as I was riding an L. & N. train between Crab Orchard and Stanford. "All the brick in that house was made in Virginia," the informant added, "and were carried on the backs of slaves from where they were made to where they were placed in the walls." I doubted and yet could not question the man's word. I wandered in amazement until reminded that when that house was built Kentucky was part of Virginia.

It was the old William Whitley home, whose builder had an important part in shaping the course of Kentucky and whence came many a party to "bury the dead in the wilderness," and to punish Indians who had surprised and killed emigrants on their way to the settlements. I remembered the large letters "W W" worked into Flemish bond-brick work of the front wall.

That old Whitley House is now in the Kentucky State Park System. The house stands in the center of a ten-acre tract acquired by the State only a few years ago, when the house was restored and opened to visitors. It was closed to the public early last Spring for the duration, but the custodian who cares for the place for his rent will gladly show visitors from a distance, who may come to see the historical old building with its secret stairway and other interesting architectural features; and the attic dance floor where pioneer boys and girls, and doubtless older people too, gather for occasional frolics.

Col. Whitley, as has been suggested, has gained a place in history by having put his wife in her right place, as well as an Indian fighter. While his own initials dominate the pattern of the building's front, over the kitchen door in the rear are the letters "E W", the initials of Easter Whitley, his wife.

Murdoch, excellent. Public Discussion, Fay Todd, sixth place, and received ten dollars contributed by local organizations for entering contest.

Mezzo soprano solo, Ruth Tinsley, excellent.

Contralto solo, Lydia Sue Butterworth, good.

Girls' trio, Ruth Tinsley, Catherine Hutson, Laurelle Rhodes, good.

All speaking events were under the supervision of Mrs. Modest Jeffrey and the musical events under the direction of Mrs. Odine Grogan.

Plans are made for an unusually interesting and entertaining commencement week. Casts for the junior and senior plays have been selected. Musical numbers including choruses, trios, and solos are practicing daily.

The F.E.A. boys, under the instruction of Mr. Story, are preparing for F.E.A. Field Day to be held at Murray Training School April 17.

Everyone in attendance thoroughly enjoyed the junior-senior banquet Tuesday evening, March 27. The program and general arrangements centered around the "Gypsy" theme, all of which was beautifully and very effectively carried out. The hospitality of the junior class could not have been exceeded on this grand occasion.

The banquet was under the supervision of Mrs. Dowell, assisted by other high school teachers and the girls of the home economics class.

Poems About Letters From Home Written By Vernon Thompson

The importance of letters from home to boys overseas is expressed in the poem, "Mail Call," written by Pvt. Vernon Thompson, serving in the Fifth Marine Division. It is believed to have been written under combat conditions on Iwo Jima Island. He is the son of Mr. and Mrs. Pete Thompson, Buchanan.

Pvt. Thompson was graduated from Buchanan High School, and received training at San Diego, Calif. before going overseas in November, 1944.

The poem follows:
There are sad things seen on These islands green,
But the saddest, I'll venture to say, is the anguished trace on a Marine's face

When he's told "There is no letter today."
Now I've seen them lie while they waited to die,
Yet gladness their face expressed while a letter torn, and badly worn, like a jewel to their heart was pressed.

O, folks back there, we know you care, and you stake your lot for us all—
But the greatest joy you can bring your boy is his name at the old Mail Call.

It's the same old sight from morn 'til night, and the same routine and such
That get a guy, though he's gladly die, 'fore he'd give an inch or as much.

But your mail from home takes our mind to roam
From the worry and care of the way, and makes it seem like a pleasant dream—
And bring us home once more.

We are doing fine on the firing line
With your bullets, tanks, and guns—
But the blast that will shell all the Axis to hell
Are the letters from you to your sons!

"Truckers' Lunch"

Along convoy roads in France the American Red Cross operates a mobile "Truckers' Lunch," a new version of the Red Cross canteen. At each station, Red Cross girls on 12-hour shifts serve coffee to G.I. drivers experiencing the cold and mud of winter. Each stand serves an average of 2,000 men a day, and has emergency billets for 150 men.

YANKEE DOODLE DOO RULES THE WAVES

Two-thirds of the World's merchant fleet now flies the American flag.

"ENEMY OF WOMEN"

"Guess this kind of puts it up to you, Mrs. Jones-to-be!"

It's up to you, honey.

I'll do all I can—but they don't pay privates in the Army very much.

So—it's up to you. It's your turn now, to wear the pants; hold down a job, and take care of the Jones' future finances.

You're smart enough to do it, too. To realize that if you'll take every cent that you don't need to live on

and tuck it away in those same War Bonds I've been buying—we'll do all right.

I'll be coming back someday. I know that. I don't think anything could happen to a fellow who's going to marry you. And when I do come back...

With what I've saved in War Bonds, and what you're going to save in War Bonds, and with the extra money those Bonds are going to bring—we'll...

We'll have a stake. A stake that'll help us to make up for all the time I've been away.

And we'll have something else, too—something that we wouldn't want to be without. Between my fighting and your buying, we'll have the knowledge that we both toed the line and did our share.

So buy those Bonds, honey. And hang onto them. Till the day when I get back—it's up to you!

Keep faith with our fighters—buy War Bonds for keeps!

ENSIGN PERDUE WRITES SISTER

Ensign Hugh Perdue wrote his sister, Mrs. Pat Hackett, a letter concerning his travels in the Navy. Parts of the letter are quoted:

Dearest Sister: 12 March, 1945

After we left the States we went to Pearl Harbor, and stayed there until about the 27th of January. Had some liberties there but Honolulu was a disappointment to me. We left there and went to Hilo, which is on the island of Hawaii and stayed there for about a week. We didn't get ashore, but I know it would have been nice because it was so very beautiful.

Mauna Loa is on that island. Honolulu and Pearl are on the island of Oahu, which isn't nearly so big as Hawaii. We were also at Maui, Lanai and Molokai but only for training operations. There's a large leper settlement on Molokai. I didn't see it as we never got ashore except on Oahu.

Honolulu is similar to most American cities and there are parts which are really beautiful. Around Waikiki and the Royal Hawaiian Hotel, there are some very nice places, but there are other parts that are very "crummy".

Herbert received his commission as second lieutenant on October 21, 1944. He is a navigator on a B-24. From November 1 to February 8 he was at Lincoln, Neb., Pueblo, Colo., and Topeka, Kan. At present he has a New York A.P.O.

He married Miss Gloria E. Henderson, of Houston, Tex., on October 27, 1944.

Wm. Harvey Mardis volunteered for the U. S. Navy at Paducah, Ky., April, 1944. He was transferred from Louisville, Ky., on May 12 to Sampson, N. Y. Important Facts About Tobacco

Only 65 million pounds of dark-fired tobacco were grown in the United States in 1944 as compared with 230 million pounds in 1934.

Increase of American consumption of dark-fired tobacco has grown to the highest point in history.

Europe urgently needs large stocks of all dark-fired grades.

United States dark-fired storage stocks are at an unusually low point.

Shipping of tobacco to Europe is starting again—the outlook for profitable sales of all dark-fired grades of tobacco seems assured for the next few seasons.

Growers in the Western District are urged to consider these facts in making their 1945 crop plans.

Increased demand necessitates increased production of dark-fired type No. 23 tobacco.

Discuss the outlook with your county agent.
